## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) s 13 – 21, 31-36, 39-42 and 46-47, drawn to Ultrasonic 3D Imaging Method, classified in 600/447,

Group II, claim(s) 47 - 50, drawn to Ultrasonic Model or Analog Encoding Method classified in Class 600/437.

The inventions are distinct insofar as the former may be practiced with reception of the ultrasonic signals onto the transducer set disposed on the carrier and in association with an image whereas the latter may be practiced with reception onto transducers other than those on the carrier and in association with production of a model as output.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 3737

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication should be directed to Jaworski Francis J. at telephone number 571-272-4738.
